

RN Certification Bonus

Approved RN Certification List for Bonus and Criteria:

To be eligible to receive the \$2500 certification bonus, RNs must be in an eligible position (RN Staff Nurses, Assistant Nurse Managers, Ostomy & Wound Nurses, and RN First Assistants). To be eligible, an RN must be regularly scheduled, have successfully completed an introductory period with Salem Health, and have not had a written reminder or final written warning in the last six months, or have remaining problems from a written reminder or final written warning in the last year. Unscheduled employees are not eligible for this program. Certifications must be above and beyond the minimum requirement for the RN's position.

Eligible certifications are those that are issued by a nationally recognized nursing organization, directly relevant to the RN's specific role, require an exam or equivalent process to obtain, and require continuing education or re-examination to keep. The employee can receive only one bonus per year for one certification.

Please see the list below of areas and approved certifications for nurses in those areas. Other certifications may be reviewed for qualification; bring an application to HR to begin that process.

SH A4E

- CCRN (Critical Care Registered Nurse (Adult, Neonatal, Pediatric Acute), American Association of Critical Care Nurses Certification Corporation
- CNRN (Certified Neuroscience Registered Nurse), American Board of Neuroscience Nursing
- PCCN (Progressive Care Certified Nurse), American Association of Critical Care Nurses Certification Corporation
